Hi good morning

I Installed the disk yesterday on the nas. The drive isn't working. I attached to the nas and in the moment the disk has a not so good noise. The drive does not start.

Is possible for you to change the drive for another one?

Hi again Pete,

No I didn't install it until today. I put it on a ReadyNas Pro, but the NAS didn't start with the drive, it sounds very bad, So I tried to start the disk over a Sata direct connection, but the symptoms are the same. The disk don't start, is like a loop, sounds bad the try to start again,.....

I could do a Video and upload it if you want to see it, I don't have problem on it.

Hi Eloy,

I do not know how to install this drive. Perhaps call Hitachi for tech support. They are very good with it. Every time I deal with them, they are nice and attentive.

Pete

Drive Serial number is YHGK4DVA. Please, check the provided number a let me know about it to return the drive.

¿is This your full address?

Pete Peru
AM Alten Berg 37

<pperu6767@sbcglobal.net>

Send it back and I'll refund the money.
Also send the Serial number so I can match it to the one in our records to make sure its the same one.
Thanks,
Pete

I think this is very simple, the drive does not work. Are you going to chage it or not?

Hi Eloy,
I do not know how to install this drive. Perhaps call Hitachi for tech support. They are very good with it. Every time I deal with them, they are nice and attentive.
Pete

Hi again Pete,

No I didn't install it until today. I put it on a ReadyNas Pro, but the NAS didn't start with the drive, it sounds very bad, So I tried to start the disk over a Sata direct connection, but the symptoms are the same. The disk don't start, is like a loop, sounds bad the try to start again,.....

I could do a Video and upload it if you want to see it, I don't have problem on it.

<pperu6767@sbcglobal.net>

I do not have another one. Did you get it to work?

Hi good morning

I Installed the disk yesterday on the nas. The drive isn't working. I attached to the nas and in the moment the disk has a not so good noise. The drive does not start.

Is possible for you to change the drive for another one?
